

AMY MAUK MOHLER '96
HANNAH MOHLER '24

SISTER SPOTLIGHT

TAU EPSILON MU

Like Mother Like Daughter

I loved that Hannah found the same love for the TEM house as I did. I definitely Life360 stalked Hannah all day on bid day so I could see where she ended up!

It was fun re-living all of the pledge stuff with Hannah. It's very different now, but there are still a lot of the traditions that I got to see through her eyes. She even found me in the attic on one of the composites! How am I in the attic already?!

Some of my favorite days at OC were spent watching Days of Our Lives in the house. I made lifelong friends during those years with people who truly became my sisters. It makes my heart happy that every time Hannah is home to visit with family, part of the family she seeks out just happens to be her TEM sisters. She found lifelong friends at 182 just as I did!

Since leaving Otterbein, we have moved around the country a lot. Once our kids started school, we made our way back to Ohio. I went to Ohio State to earn my master's in education and have been teaching elementary school ever since! Third grade is my happy place. Matt (Otterbein '94) and I also have 2 sons. Justin graduated from OSU in 2022 and Ryan is a junior at Ashland University. Our empty nest is full of floofy dogs now!

Over the years, I have enjoyed all the stories my mom has shared with me about her time in TEM. A lot has changed in the chapter for sure so it's cool to see what it was like for her back in the 90s. I also loved sharing homecoming with my mom. It was so much fun to be able to have her on campus and to spend that time together.

After graduation, I moved to Chicago and have been working as a research analyst for NIQ. I still love getting updates from those still in the chapter, especially now that I'm further from home.
